NFL Statistics Feeds

We package our comprehensive stats collection into the following feeds, each focused on serving specific information needs.

Extended Boxscore – top-level team scores by quarter along with team leaders in passing, rushing, and receiving

Game Boxscore – top-level team scores by quarter

Game Depth Chart – team depth chart rankings, for the game, for every position

Game Roster – player information for each match-up, including height/weight, jersey number, position and injury status

Game Statistics – detailed game stats at the player and team level, including extensive offense, defense and special teams breakouts

Game Summary – team comparisons for all major stat categories within a game, as well as deeper insights such as third/fourth down and red zone efficiency

Injuries – detailed information on injuries, including the injury type and player game and practice status

Play Summary – real-time play detail for every game play

Play-by-Play – detailed, real-time information on every team possession and game event

Rankings – conference and division rank for each team, including post season clinching status

Season Schedule – provides the date, time, location and other event details for every match-up, for the season, as well as links to the seven other feeds

Seasonal Statistics – detailed season stats at the team level and player level, including extensive offense, defense and special teams breakouts

Standings – detailed information on wins and losses, broken down by conference, division and various scenarios

Team Depth Chart – depth chart rankings for every position

Team Hierarchy – conference, division, and team identification and association information

Team Roster – player information for a team, including height/weight, jersey number, position and injury status

Weekly Boxscore – top-level team scores, by quarter, for all games in the given week

Weekly League Leaders – provides the league leaders, and their corresponding stats, for the categories of passing, rushing, receiving, kicking (field goals & extra points)

Weekly Schedule – provides the date, time, location and other event details for every match-up, for the week, as well as links to the seven other feeds

Frequently Asked Questions

Q: What are the possible game types and their descriptions?

A: Here are the valid game types and their descriptions:

PRE – Pre-season game
REG – Regular season game
PST – Post season game

Q: What are the possible season types and their descriptions?

A: Here are the valid season types and their descriptions:

PRE – Pre-season game
REG – Regular season game
PST – Post season game

Q: What are the valid game statuses and their definitions?

A: Here are the valid game statuses and their descriptions:

scheduled - The game is scheduled to occur.
created – We are ready to begin recording actions against a scheduled game.
inprogress – The game is in progress.
complete – The game is over, but stat validation is not complete.
closed – The game is over and the stats have been validated.
reopened – The game stats are in the process of being corrected.
delayed – The start of the game has been delayed, or a game that was in progress is currently delayed.
flex-schedule – The game is currently scheduled to occur on a specific date and time, however, it will more than likely be moved to a different time for broadcast purposes.
time-tbd – The game is scheduled to occur on a specific date, but the specific time it not available.

Q: What are the valid player statuses and their definitions?

A: Here are the valid player status and their descriptions:

ACT – Active
DUP - Duplicate
EXE – Exempt
IR – Injured Reserve
IRD – Injured Reserve – Designated for Return
NON – Non football related injured reserve
NWT – Not with Team
PRA – Practice Squad
PUP – Physically unable to perform
RET - Retired
SUS – Suspended
UDF – Unsigned draft pick

A: Here are the valid player game statuses and their descriptions:

DOU – Doubtful

OUT – Out of game

PRO – Probable (No longer used as of the 2016 season)

QST – Questionable

UNK – Unknown or no player status available

A: Here are the valid player practice statuses and their descriptions:

Did Not Participate – The player did not participate in practice

Limited Participation – The player practiced, but his activities were limited

Full Participation – The player participated in practice

Q: What are the event types we track?

A: The valid event types are:

cointoss

tevertimeout

injurytimeout – Note: This status is not currently used for NFL games.

tvtimeout

challenge

review

quarterend

twominuteswarning

miscnote

gameover

Q: What are the score types we track in the Game Boxscore?

A: The valid score types are:

touchdown

extrapoint

conversion

fieldgoal

safety

Q: What are the play types we track?

A: The valid play types are:

penalty

kick

punt

rush

pass

fieldgoal

extrapoint

Q: What are the various penalty codes and their definitions?

A: Here are the penalty codes and their corresponding definitions:

Defense	Offense
dtm - 12 men in the huddle	otm - Offense - 12 men in the huddle
d12 - 12 players	o12 - Offense - 12 players
dpb - Batting or punching a loose ball	ol7 - Offense - Less than seven men on offensive line at snap
dnc - Captains not appearing for coin toss	ofr - Offense - A punter placekicker or holder who fakes being roughed
dcw - Clipping	onc - Offense - Captains not appearing for coin toss
dds - Delay of game at start of either half	ocb - Offense - Chop block
ddg - Delay of game	ocw - Offense - Clipping
ddk - Delay of kickoff	ods - Offense - Delay of game at start of either half
den - Encroachment	odg - Offense - Delay of game
