Ice Hockey Statistics Feeds

We package our comprehensive stats collection into the following feeds, each focused on serving specific information needs:

Daily Results - Returns a list of match results for a given date: yyyy-mm-dd

Daily Schedule - Returns a list of scheduled matches for a given date: yyyy-mm-dd

Head to Head - Compares past results and schedules upcoming matches given two team IDs

Match Lineups - Provides basic match lineup information for both teams.

Match Probabilities - Returns the pre-match 3-way probabilities of winning for both teams. Expires once the match is live.

Match Summary - Displays summarized information about a specific match

Match Timeline - Displays information for a specific match including a timeline of events, live (assuming coverage levels dictate that it is live) as well as match and player statistics

Team Profile - Returns information and stats for a team

Team Results - Returns a list of match results for a given team

Team Schedule - Returns a list of scheduled matches by team

Team Statistics - Returns information and stats for a team within a tournament. The Tournament ID can be interchanged with Season ID to display the stats for past seasons if collected

Tournament Info - Provides information pertaining to a given tournament

Tournament Leaders - Returns the ranked list of players leading the tournament with Points (goals + assists), goals, and assists

Tournament List - Lists all tournaments in the package

Tournament Live Standings - Returns the live standings for a given tournament. This data changes in relation to events occurring in currently live matches

Tournament Results - Returns a list of results for a given tournament

Tournament Schedule - Returns a list of scheduled matches for a given tournament

Tournament Seasons - Displays a listing of seasons with respective IDs. Season IDs can be interchanged with tournament IDs to retrieve historical data

Tournament Standings - Returns the current standings for a given tournament

Updated 09.07.17

Coverage Levels

Coverage level information for a particular tournament can be found in the Tournament Info endpoint. Match level coverage information is found in the Match Summary and Match Timeline endpoints.

From time to time, coverage is updated. In order keep up to date with the latest coverage levels please check the change log: http://developer.sportradar.us/change_log and also refer to the Sportradar coverage document published here: https://www.sportradar.com/wp-content/uploads/sites/5/2014/12/Sportradar_Coverage.pdf

Language Support

We provide support for a large set of languages. The language support primarily affects names of players, teams, tournaments etc. Different languages are obtained through different endpoints where the only difference is the language part of the path. The language part is any valid ISO-646 language code. For languages we don't provide specific translations for we return back the names in standard English.

Frequently Asked Questions

Q: What leagues or tournaments do you cover for Ice Hockey?

A: We cover the following tournaments:

Area	Tournament
International	World Championship
	World Championship Div 1
	World Championship Women
	Olympic Tournament
	Olympic Tournament Women
	Euro Hockey Tour
	World Cup of Hockey
	U18 World Championship
	U20 World Championship
	Germany Cup
	Spengler Cup
	Champions Hockey League
	Euro Hockey Challenge
	Friendly Games, Domestic Cups (1)
Austria	EHL
	Inter-National-League
	Young Stars League
Belarus	Extraliga
Canada	OHL
Czech Republic	Extraliga
	Liga
Denmark	Superisligaen
England	Elite League
Finland	SM-liiga
	Mestis
France	Ligue Magnus
	Coupe de France
Germany	DEL
	DEL 2
	DEB-Pokal
Italy	Elite A
Norway	Eliteserien
	1. Divisjon
Poland	Ekstraliga
Russia	KHL
	VHL
	MHL
	KHL All Star Game
	Hope Cup
Slovakia	Extraliga
	1 Liga
Sweden	SHL
	Allsvenskan
	HockeyEttan
	Riksserien Damer
Switzerland	NLA
	NLB
	Cup
US	NHL
	NHL All Star Game

	AHL
	AHL All Star Game

Q: What is the Date format?

A: When we present date only values we present these in the ISO 8601 standard format.
ex: 2013-04-03

We use these for attributes that have date and no time (such as birthdate). For more information:
https://en.wikipedia.org/wiki/ISO_8601

Q: What time zone are the date time fields presented in?

A: All of our DateTime attributes are in UTC, presented in the ISO 8601 standard format.

ex: 2013-04-03T18:15:00+00:00

For more information: https://en.wikipedia.org/wiki/ISO_8601

Q: What are the valid match status values?

A: Here are the valid match status values and their definitions:

- not_started – The match is scheduled to be played
- live – The match is currently in progress
- postponed – The match has been postponed to a future date
- delayed – The match has been temporarily delayed and will be continued
- canceled – The match has been canceled and will not be played
- ended – The match is over
- closed – The match results have been confirmed.

Q: How do I access past seasons' result and stats?

A: *TournamentID* and *SeasonID* are interchangeable. To access a previous season, first interrogate the *tournaments/[tournamentID]/seasons* endpoint to ascertain the required *seasonID*, then use that *seasonID* in place of the *tournamentID* for any of the following endpoints:

- *Tournaments/seasonID/results*
- *Tournaments/seasonID/schedule*
- *Tournaments/seasonID/teams/teamID/statistics*
- *Tournaments/seasonID/standings*

Q: What are the valid outcomes for probabilities?

A: Here are the valid outcome probabilities:

- home_team_winner
- away_team_winner

Q: How do I find out the coverage for a particular match?

A: Find the node called: `coverage_info`. The attribute `live_coverage` reports whether Sportradar has live coverage of the match or not. At a tournament level, the coverage is described in the `tournament_info` endpoint

Q: Why do different groups have coverage information for a tournament?

A: The notion of “groups” is versatile and is used to distinguish between playoffs, and our tournaments structures and is therefore necessary to describe coverage at a group level for consistency. Generally, however, within a tournament in Ice Hockey, there will be no difference between tournament coverage between conferences.

Q: What are the possible event types logged?

A: Here are all of the possible event types we log:

- Match started
- Period started
- Score change (Goal scorer, Primary Assist, Secondary Assist)
- Break start
- Match ended

Q: What are the valid tournament types?

A: Here are the valid tournament types:

- group
- playoff
- cup

Q: What are markets and what are the different markets?

A: Markets is something you can bet on that we provide probabilities for. Over time we intend to provide more and more markets in the API. Currently the only market we provide is 3-way (will the home team win? Or the away team? Or will it be a draw?)

Q: What are the possible outcomes?

A: Different markets have different outcomes. The available markets are currently:

- home_team_winner
- away_team_winner
- draw
