Cricket v2 Statistics Feeds

Table of Contents

Cricket v2 Statistics Feeds

We package our comprehensive stats collection into the following feeds, each focused on serving specific information needs:

Daily Live Schedule – Provides scheduled match information for all matches being played live.

Daily Live Results - Provides a summary of match results for live matches.

Daily Results – Provides a summary of all matches played on a given day.

Daily Schedule – Provides schedule information for all matches played on a given day.

Match Lineups – Provides lineups and batting order for a given match.

Match Summary - Provides real-time match-level statistics for a given match. Including results and player and team stats. Please note that data returned is determined by coverage level.

Match Timeline – Provides real-time match-level statistics and a play-by-play event timeline for a given match. This includes player and team stats, scoring info, batting and bowling parameters, and human-readable event descriptions. Please note that data returned is determined by coverage level.

Match Timeline Delta – Retrieves the Match Timeline delta. During a live match, the timeline delta provides all the same data as the match timeline feed, but in 5-minute increments.

Player Profile – Provides player information, including current and historical team membership info, and statistics broken down by match format.

Team Profile – Provides team information and statistics by season.

Team Results – Provides match info and statistics for the past 10 matches for a given team.

Team Schedule – Provides match schedule information for a given team.

Team Versus Team – Provides previous and upcoming meetings between two teams including results.

Tour List – Provides a list of all available Cricket Tours.

Tournament Info – Provides information for a given tournament or season, including current season, participating teams, and tournament structure.

Tournament List – Provides a list of all available Cricket Tournaments.

Tournament Leaders – Provides leaders in a given tournament or season for a variety of stats including top runs, top average, top wickets, top bowling average, top economy, and top catches.

Tournament Results – Provides results for all matches within a given tournament or season.

Tournament Schedule – Provides scheduling information for all matches within a given tournament or season.

Tournament Seasons – Provides a list of current and past season IDs for a given tournament. Season IDs can be interchanged with tournament IDs to retrieve historical data.

Tournament Seasons – Provides squad lineups for a given tournament or season.

Tournament Standings – Provides detailed standings info for a given season.

Rank	Tournament Standings	team_standing	rank	Integer
Type	Tournament Standings	standings	type	String
Win	Tournament Standings	team_standing	win	Integer

Frequently Asked Questions

Q: What is the Date format?

A: When we present date only values we present these in the ISO 8601 standard format.
ex: 2013-04-03

We use these for attributes that have date and no time (such as birthdate). For more information:
https://en.wikipedia.org/wiki/ISO_8601

Q: What time zone are the date time fields presented in?

A: All of our Date/Time attributes are in UTC, presented in the ISO 8601 standard format.

ex: 2013-04-03T18:15:00+00:00

For more information: https://en.wikipedia.org/wiki/ISO_8601

Q: How can I find the values for various enum data points within the API?

A: Many enum values are listed in the FAQ below. For the most up-to-date values, please see the Schema section of the OpenAPI specification here: https://api.sportradar.com/cricket/trial/v2/openapi/swagger/index.html

Q: What valid languages you support?

A: Currently only English (en):

Q: How do I find out the coverage for a particular match?

A: This is available in our coverage properties within Sport Event Timeline. Coverage levels are:
- Post-match - Lowest level of coverage. Data is entered after the completion of the match
- Core - Includes basic data such as scores, players, current over stats, required run rate
- Advanced - More granular coverage. Includes more datapoints such as shot and ball types, wagon wheel data
- Fielding - More enhanced coverage currently only for major ICC events (World Cup Mens, Womens, U19) and the Caribbean Premier League (CPL). Data points include richer data for fielding events, fielding position coordinates and multiple-player events

Q: What are the valid "sport_event – status" and "sport_event_status – status" values?

A: Here are the valid match status values and their definitions:

not_started – The match is scheduled to be played.
live – The match is currently in progress.
postponed – The match has been postponed to a future date
suspended – The match has been suspended.
delayed – The match has been temporarily delayed and will be continued.
cancelled – The match has been cancelled and will not be played.
abandoned – The match began, but was abandoned.
interrupted - The match began, but coverage has stopped for a short time. Note that match scores may not be updated during this period, the last recorded match score will be displayed instead
ended – The match is over.
closed – The match is over and the results have been confirmed.

Q: What are the valid "sport_event_status – match_status" values?

A: Here are the valid match status values and their definitions:

awaiting_super_over
dinner
drinks
ended
first_innings_away
first_innings_home
fourth_innings_away
fourth_innings_home
innings_break
interrupted
lunch_break
second_innings_away
second_innings_home
stumps
super_over
tea_break
third_innings_away
third_innings_home

Q: What are the possible statuses within Sport Event Status?

A: Here are the valid statuses:

match_delayed_due_to_wet
match_abandoned
ground_conditions
bad_ground_condition
bad_light
bad_pitch
bad_weather_condition
crowd_invasion
crowd_trouble
dinner
drinks
fog
innings_break
light_failure
lunch
match_abandoned
match_ended
play_halted
rain_stoppage
stumps
super_over
in_progress
tea
wet_ground_condition
wet_pitch_condition

Q: How will a sport event behave when it is not covered with live scores?

A: When a sport_event is not covered live, the status and match_status will remain as not_started until results are entered post-match.

Q: What does the `batting_params.trace` attribute represent?

A: The `trace` attribute is a Boolean value signifying whether or not the ball was hit in the air.

Document Change History

Date	Section	Change
11/13/2023	Team Information Player Information	Added the Tournament Squads endpoint.
10/30/2023	Match Information	Added allotted overs for matches at the period and match level.
10/30/2023	Leaders Information	Added a Tournament Leaders endpoint. This provides stats leaders for a given tournament or season.
10/18/2023	Match Information	Added required run rate (sport_event_status.required_run_rate) to match statistics.
10/06/2023	Match Information	Added the Match Timeline Delta endpoint for parity with the Cricket Legacy v2 API.
09/26/2023	All	Upgraded the data source that powers Cricket v2. Cricket data is now official with Cricket Australia and the England & Wales Cricket Board.
06/30/2022	Match Information	Added a neutral venue Boolean attribute for relevant matches.
01/20/2022	FAQ	Added a description on status behavior for a match which is not covered live.
11/04/2021	FAQ	Included visual representations of pitch coordinates, strike zone coordinates, and field zones.
06/04/2019	Coverage Information Tournament Information	Added live coverage data point and coverage level. Updated the Coverage Information to better describe match coverage.
11/04/2018	All	Added separate listing for Daily Live Schedule.
10/04/2018	Sport & Category Information Team Information Player Information	Added data points in support of the Tournament Squads feed.
09/18/2018	Timeline Information	Added is_substitute_fielder to the dismissal_details element in the Match Timeline feed.
08/16/2018	Standings Information	Added team_standing – change and team_standing – current_outcome to the Standings feed.
11/13/2017	Match Statistics – Player Batting Information	Added data point for retired_hurt.
10/09/2017	FAQ	Added lists of possible values for "sport_event_status – status" and "sport_event_status – match_status".
04/21/2017	Player Information	Added is_captain and is_wicketkeeper data points to the Match Lineup feed.
04/10/2017	All	Document creation
